## How to play

1. The host picks a winning number from 1 – 20, writes it in the bottom right hand corner and folds it over so no one can see.
2. For a suggested entry of \$5, players put their name down next to an item.
3. Once all players have selected their number, the host reveals the winning item.
4. The winner receives half of the money collected in the sweepstake and the host will donate the remainder of the money to Parkinson's NSW.
